

Canadian Association for the Club of Rome

Association canadienne pour le club de Rome

MEMBERSHIP APPLICATION FORM

About CACOR:

- is a non-governmental organisation dedicated to informed debate and action on global issues:
 - in the spirit of global understanding of the limits to growth on a finite planet formulated by the international Club of Rome.
- is a multi-disciplinary think tank and advocate:
 - the backgrounds of its members range from agriculture and anthropology, through economics, engineering, history and the arts, natural sciences, organizational development and leadership, political science, to zoology;
 - the range of experience of its members is deep and equally wide.
- looks at matters in the context of the whole system of which they are a part:
 - has conducted a systems analysis of the pathways by which Canada could actually keep its international commitments to reduce emissions of greenhouse gases.
- collaborates with other national clubs of the Club of Rome, in particular with the United States Club of Rome.
- is a registered Canadian charity:
 - the annual fee qualifies as a donation

Benefits of Membership:

- Zoom presentations: CACOR holds regular Zoom presentations on a wide range of topics by experts in their fields drawn from here and abroad. Presentations are followed by lively discussions. Attendance includes CACOR members, members of the United States Club of Rome, and overseas members of the international Club of Rome. The presentations are posted on YouTube.
- Lunches: Social gatherings with presentations and discussions—a long-standing hallmark of CACOR—take place as appropriate.
- Google Groups: CACOR has five Google Groups. These provide a dynamic forum for members, with the exchange of a wealth of articles, sources, and opinions.
- Website: CACOR's website (<https://canadiancor.com/>) is a rich and up-to-date resource. Members are invited to contribute. The vast collection is searchable.
- CACOR studies and the website provide a foundation for personal understanding, as well as for individual and collective advocacy.
- Collaboration: CACOR has agreements with both the Group of 78 and the Canadian Meteorological Society (CMOS). These provide access to each other's activities at the rates of the host society.

Application:

Name	
Email address	
Postal address	
Telephone number	
Background (attach CV if you wish)	
Your CACOR-related interests	
Aims of CACOR that you could envisage promoting through dialogue and advocacy	
How, or from whom, did you learn about CACOR?
